Monday 19th September 2016

5pm - 7pm

Refreshments available in the Main Hall.

The next exciting episode of your learning journey...

Dear Parent(s) / Carer(s) and Students,

Thank you for taking an interest in our school. We recognise that choosing a secondary school is one of the most important decisions parents, carers and children will ever make. Schools are in the privileged position of helping to shape young people's lives and at Rye Hills we take this responsibility very seriously. We believe that a child only has one school life and together we must make sure it is as happy and successful as possible.

Students at Rye Hills do very well. They enjoy school and achieve within an environment with a strong ethos of both learning and support. Our students leave us ready to take their place in society as confident, caring and responsible young adults.

We value a strong partnership between home and school and consider parents an important part of our learning community. We welcome and appreciate their contribution to school life. We share the same aim – to enable children to reach their full potential.

All staff at Rye Hills work hard to ensure that students are happy, safe and cared for but also take responsibility for their actions and behaviour. We believe that teaching should inspire and enthuse so that children develop a life-long love of learning. We also believe that children are entitled to a personalised, supported learning journey which ends in success for them as individuals.

We hope that you find this evening informative and it allows you to experience a flavour of the life of Rye Hills School.

I am happy to speak to you this evening about any aspect of school life.

With kind regards,
Mrs Caroline Waugh BA(Hons), PGCE, NPQH, MA(Ed)
